

Lead Module Agile User Story Specification

End-to-End Business Requirements, Acceptance Criteria (BDD/Gherkin), Scoping Rules & Traceability

Platform: myAgenci.ai CRM

Module: Lead Management & Sales Pipeline

Version: 2.0

Framework: Agile Scrum / BDD

Date: 2026-10-10

1. User Personas & Role Profiles

Persona	Role Name	System Access Level	Key Objectives
PER-1	Company Admin / Director	ACCESS_COMPANY	Full sales pipeline visibility, price discount approvals, company revenue tracking.
PER-2	Branch Manager	ACCESS_BRANCH	Branch-level sales supervision, lead quota allocation, agent workload rebalancing.
PER-3	Team Leader (TL)	ACCESS_TEAM	Daily team targets, untouched lead follow-ups, telecaller performance audits.
PER-4	Sales Executive / Telecaller	ACCESS_SELF	Calling assigned leads, logging conversation notes, deal negotiations, closing sales.
PER-5	Pre-Sales Qualifier	Branch / Company Scope	Rapid lead scrubbing, verifying customer intent, routing to branch sales reps.
PER-6	Customer Support Exec (CST)	Support Scoped	Post-sales customer onboarding, project kick-off handover, ticket resolution.

2. Epics & User Stories

US-1.1: Single Manual Lead Creation with Branch Scoping

MUST HAVE

PER-4 / PER-3

As a Sales Executive or Manager,

I want to quickly capture a new lead with company name, contact person, mobile number, branch, and product interest,

So that the lead is recorded in the CRM and tracked in the sales pipeline without losing inbound prospects.

Acceptance Criteria:

- **AC-1.1.1 (Required Fields):** On `/leads/create`, `Company Name`, `Contact Person`, `Branch`, and `Mobile Number` are mandatory.
- **AC-1.1.2 (Phone Validation):** Enforces international E.164 phone regex `/^\+?[0-9]{7,15}$/`. Non-numeric or invalid input yields inline error.
- **AC-1.1.3 (Auto-Attributes):** System defaults `created_by = auth()→id()`, `company_id = auth()→user()→company_id`, and `lead_date = today()`.
- **AC-1.1.4 (Feedback):** On submission, redirects to `/leads/{id}` with toast: "Lead created successfully".

Technical Mapping: `LeadController@store` | `StoreLeadRequest` | Model: `Lead`

US-1.2: Bulk Lead Ingestion via CSV / Excel

SHOULD HAVE

PER-1 / PER-2

As a Branch Manager or Administrator,

I want to upload a spreadsheet of leads and map its columns to CRM fields,

So that marketing event attendees and directories can be ingested in bulk without manual typing.

Acceptance Criteria:

- **AC-1.2.1 (Upload & Parsing):** Supports `.csv` and `.xlsx` up to 10MB; extracts headers and shows column mapping GUI.
- **AC-1.2.2 (Column Mapping):** User can map `Company Name`, `Contact Person`, `Phone`, `Email`, `Source`, and `Branch`.
- **AC-1.2.3 (Duplicate Detection):** Checks phone numbers against tenant leads; duplicates are skipped and logged in error summary.
- **AC-1.2.4 (Atomic Transactions):** Batch inserts processed in chunks of 100 within safe DB transactions.

Technical Mapping: `LeadImportController` | Model: `Lead`

US-1.3: Real-Time Facebook Lead Ads Graph API Ingestion

MUST HAVE

PER-1 / SYSTEM

As a Marketing Administrator,

I want inquiries from Meta Lead Gen Ad campaigns to instantly sync into the CRM via Meta Graph API,

So that our sales team can contact ad respondents within minutes of ad submission.

Acceptance Criteria:

- **AC-1.3.1 (Graph API Sync):** Cron `php artisan app:facebook-lead-integration` polls Graph API v19.0 using campaign tokens.
- **AC-1.3.2 (Field Mapping):** Extracts `full_name`, `phone_number`, `email` from Meta's `field_data` JSON array.
- **AC-1.3.3 (Audit Payload):** Stores raw payload in `leads.facebook_payload` and `facebook_lead_id`.
- **AC-1.3.4 (Round-Robin):** Automatically distributes incoming leads round-robin across configured `assigned_users`.

Technical Mapping: `FacebookLeadImporter` | `FacebookLeadIntegration`

US-2.1: Mass / Single Lead Reallocation

MUST HAVE

PER-2 / PER-3

As a Team Leader or Branch Manager,

I want to transfer leads between executives (due to employee absence, resignation, or quota rebalancing),

So that customer communication continues without interruption.

Acceptance Criteria:

- **AC-2.1.1 (Single Reassign):** Clicking "Reassign" on lead detail opens a modal to choose the target executive.
- **AC-2.1.2 (Bulk Reassign):** Checkbox multi-select on `/leads` triggers bulk reassignment action bar.
- **AC-2.1.3 (Security Guard):** Sales executives cannot reassign leads; only Branch Managers and TLs have permission.

Technical Mapping: `LeadReallocationController` | Model: `Lead`

US-3.1: Untouched Leads Priority Queue & SLA Tracking

MUST HAVE

PER-3 / PER-4

As a Sales Executive,

I want to see an isolated queue of leads that have never received a telecall,

So that I can prioritize fresh inquiries and achieve first contact within the company SLA (< 2 hours).

Acceptance Criteria:

- **AC-3.1.1 (Query Filter):** `/leads/untouched` lists leads where `COUNT(lead_call_updates) == 0` and status not closed.
- **AC-3.1.2 (SLA Badging):** Visual badges highlight lead aging (< 2 hrs green, 2-24 hrs amber, > 24 hrs red).
- **AC-3.1.3 (Auto-Removal):** Logging the first call immediately removes the lead from the untouched list.

Technical Mapping: `LeadController@untouchedIndex` | View: `pages.leads.untouched`

US-3.2: Logging Telecall Outcomes & Follow-up Tasks

MUST HAVE

PER-4

As a Sales Executive,

I want to log call outcome notes and schedule follow-up dates in one modal,

So that interaction history is captured and a reminder is automatically scheduled on my calendar.

Acceptance Criteria:

- **AC-3.2.1:** Modal captures Outcome, Outcome Subcategory, Call Notes, Next Follow-Up Date & Time.
- **AC-3.2.2 (Auto Reminder):** When a future follow-up date is provided, a record in `lead_reminders` is auto-created.
- **AC-3.2.3 (Timeline Display):** Call log is appended chronologically to the 360-degree lead profile timeline.

Technical Mapping: `LeadShowController@storeCall` | Models: `LeadCallUpdate` , `LeadReminder`

US-4.1: Product Line Items, Discounts & Price Approval Workflow

MUST HAVE

PER-4 / PER-1

As a Sales Executive negotiating deal values,

I want to add multiple products, apply discounts, and request manager approval when price is below base unit price,

So that accurate commercial deals can be offered while respecting company margin thresholds.

Acceptance Criteria:

- **AC-4.1.1 (Multi-Products):** Supports multiple services/products per lead with unit price, qty, discount %, GST %.
- **AC-4.1.2 (Price Exception):** If offered unit price is lower than product base rate, requires manager approval request.
- **AC-4.1.3 (Approval Action):** Authorized manager can Approve/Reject via web or mobile API; approval updates unit price and recalculates totals.

Technical Mapping: `LeadShowController@storeProduct` | `LeadProductPriceRequestController`

US-4.3: Milestone Payments Collection & TDS Accounting

MUST HAVE

PER-4 / ACCOUNTS

As an Executive collecting customer advances,

I want to record payments with reference numbers, payment mode, receipt file, and TDS deduction details,

So that commercial accounts reconcile accurately with our bank statements.

Acceptance Criteria:

- **AC-4.3.1:** Modal captures Gross Amount, Payment Mode (NEFT/UPI/Cheque), Reference UTR, Date, and Voucher Receipt.
- **AC-4.3.2 (TDS Computation):** If TDS is deducted, calculates TDS Amount and Net Bank Credit.
- **AC-4.3.3 (Paid Status):** When cumulative payments match or exceed `total_price` , status transitions to `paid` .

Technical Mapping: `LeadShowController@storeProductPayment` | Model: `LeadProductPayment`

US-5.1: Hierarchical Data Visibility & Tenant Security

MUST HAVE

SECURITY ENGINE

As an Enterprise Security Auditor,

I want lead visibility to be strictly bound to tenant and organizational role level,

So that cross-tenant data leakage is impossible and sales reps cannot snoop on colleagues' leads.

Acceptance Criteria:

- **AC-5.1.1 (Multi-Tenancy):** Every query is scoped by `company_id` ; cross-company access returns 403 Forbidden.
- **AC-5.1.2 (Role Scopes):** Execs see only assigned leads; TLs see team leads; Branch Managers see branch leads; Admins see company leads.
- **AC-5.1.3 (Central Enforcer):** All queries route through `DataVisibilityService::applyLeadVisibility($query)` .

Technical Mapping: `DataVisibilityService` | `BelongsToCompany` trait

US-6.1: Deal Conversion & Customer Support Team (CST) Handover

MUST HAVE

PER-4 / PER-6

As a Sales Executive closing a deal,

I want to convert the lead to "Won" and allocate a Customer Support TL & Executive,

So that post-sales project fulfillment commences immediately without loss of customer requirements.

Acceptance Criteria:

- **AC-6.1.1 (Conversion Event):** Status update to "Won" timestamps `converted_at` and `closure_date` .
- **AC-6.1.2 (CST Allocation):** Prompts allocation of CST TL and Support Executive; triggers handover notification.
- **AC-6.1.3 (CST Notes):** CST executive can log onboarding milestones via `/leads/{id}/cst-updates` .

Technical Mapping: `LeadController@updateStatus` | `LeadController@storeCstUpdate`

US-7.1: Dynamic Custom Fields (Custom Form Builder)

COULD HAVE

PER-1

As a Company Administrator,

I want to configure custom lead fields for specific branches without running database migrations,

So that industry-specific lead information (e.g. GSTIN, Turnover, Fleet Size) can be captured.

Acceptance Criteria:

- **AC-7.1.1:** Admin defines fields with label, type (text, number, select, date), and validation rules.
- **AC-7.1.2:** Fields render dynamically on lead create/edit forms.
- **AC-7.1.3:** Values are validated and stored in `lead_field_values` via EAV model.

Technical Mapping: `LeadFormFieldController` | Models: `LeadFormField` , `LeadFieldValue`

3. Traceability & Priority Matrix

Story ID	Title	MoSCoW Priority	Core Controller	Primary Model
US-1.1	Single Manual Lead Creation	MUST HAVE	LeadController@store	Lead
US-1.2	Bulk CSV/Excel Lead Ingestion	SHOULD HAVE	LeadImportController	Lead
US-1.3	Facebook Graph API Auto-Sync	MUST HAVE	FacebookLeadImporter	Lead
US-2.1	Single / Mass Lead Reallocation	MUST HAVE	LeadReallocationController	Lead
US-3.1	Untouched Leads Queue	MUST HAVE	LeadController@untouchedIndex	Lead
US-3.2	Telecall Interaction & Reminders	MUST HAVE	LeadShowController@storeCall	LeadCallUpdate
US-4.1	Product Line Items & Price Approval	MUST HAVE	LeadShowController@storeProduct	LeadProduct
US-4.3	Milestone Payments & TDS	MUST HAVE	LeadShowController@storeProductPayment	LeadProductPayment
US-5.1	Hierarchical Data Visibility (RBAC)	MUST HAVE	DataVisibilityService	Lead
US-6.1	Deal Conversion & CST Handover	MUST HAVE	LeadController@updateStatus	Lead
US-7.1	Dynamic Custom Form Builder	COULD HAVE	LeadFormFieldController	LeadFormField
